Project Coordinator
Hazardous Waste Program
Missouri Department of Natural Resources
7545 S. Lindbergh, Suite 210
St. Louis, MO 63125

Dear Ms. Kump-Mitchell:

Enclosed is the quarterly report for the quarter ending June 30, 2004 as required in paragraphs 91 through 94 of the Corrective Action Abatement Order on Consent, Order No. 99-HW-002 (AOC). The following summarizes the activities completed during the quarter.

Description of Work Completed During the Quarter:

A conference call was held with MDNR regarding the letter of further explanation regarding soil, groundwater and indoor air dated March 5, 2004. The indoor air issue was resolved and is now considered closed with the Human Health Environmental Indicator (EI) to be completed by MDNR. A portion of the soil issue was also resolved: the west excavation area on the site is considered complete with other areas on and off site still being considered open by MDNR. A letter (or letters) to confirm the indoor air and west side soil closures will be sent by MDNR. Modine will also draft the groundwater EI when all relevant groundwater reports and data have been completed.

Summaries of Findings, Data, Etc.:

No additional data or calculations were completed during this quarter.

Summaries of Problems or Potential Problems and any Corrective Measures Implemented:

No problems were encountered during the quarter.

ARTD/RCAP

Projected Work for the Next Reporting Period:

The anticipated work to be completed consists of completing the groundwater final report and completing the associated EI.

Instances of Non-compliance with the Requirements of the Order:

There were no known instances of non-compliance with the requirements of the Order during the quarter.

If you have any questions on this report, please contact me at (262) 636-1649 or at the letterhead address.

Sincerely,

Thomas S. Sanicola
Principal Environmental Engineer
